

ECOFLEX

Ecoflex is a minimal masterpiece, combining a clean understated aesthetic design with outstanding functional flexibility. It's stylish, light and built with sustainability in mind, so it makes an impact on any interior without making an unnecessary impact on the environment. Ecoflex is designed to fit around you. You can adjust everything from seat depth to lower back support with simple, intuitive controls.

Plus, a rotational three-stage travel limiter helps you maintain the open, fluid action of the chair - a feature that has recognised back health benefits.

A variety of finish options make it an ideal choice for any environment. Its Plastic components are available in either Light Grey or Black, the perfect frame for the range of six back mesh colours available.

Design by Justus Kolberg

ENVIRONMENTAL

Material Content

Components are constructed of the following

Recycled Content

Contains up to 1.5% of Recycled Material

Recyclability

The range is 99% recyclable

99%

Environmental information for this range has been based on ECF740HA. For more detail please refer to individual EPA sheets.

SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

Reduce Reuse Recycle
